

## SCOUTING MOMENTS IN HISTORY

Ernest Thompson Seton met Scouting's founder, Lord Baden-Powell, in 1906. Baden-Powell had read Seton's book, *The Birch Bark Roll of the Woodcraft Indians*, and was greatly intrigued by it. The pair met and shared ideas. Baden-Powell went on to found the Scouting movement worldwide, and Seton became the president of the committee that founded the Boy Scouts of America (BSA) and was its first (and only) Chief Scout. Seton's Woodcraft Indians (a youth organization) combined with the early attempts at Scouting from the YMCA and other organizations and with Daniel Carter Beard's Sons of Daniel Boone, to form the BSA. The work of Seton and Beard is in large part the basis of the Traditional Scouting movement.\*

As scouting celebrates its 110<sup>th</sup> anniversary this year, our troop is celebrating our 10<sup>th</sup> anniversary. We would like to thank all the parent volunteers that have supported the troop and parents that have supported their scouts along the way and kept our troop active and growing despite the challenges around us. We look forward to what the future brings and how our troop will continue to be a presence in the community as we encourage our youth to explore their surroundings, earn a variety of merit badges to inspire possible future careers, build character and leadership skills.

We thank our Charter Organization, the Redondo Beach Elk’s Lodge #1378, for all their support.
